HI, FRIEND

So happy you're here.

Casually Captured is all about the real stuff: candid moments, details you dreamed over, and the "wait, did you get that?!" moments. I show up like a friend who happens to be great with a camera, so you can relax, be yourselves and actually enjoy your day. Hang up the phones and hang out with your people.

I've got it covered.

Intentional storytelling, straight to your camera roll.

What's a wedding content creator?

I capture your day in real time, with steady vertical videos, candid photos and behind-the-scenes moments your friends and family would take if they weren't busy celebrating. It's made to share, post and feel all the nostalgia right after it happens.

Do we still need a photographer or videographer?

Most couples have both! I work alongside your photographer and videographer, not in place of them. They create your heirloom gallery and film. I give you the raw, in-the-moment content, right away.

Fast

Raw content in 24 hours, not months later.

Real

Candid, unposed, and exactly how it felt.

Ready to share

Reels and clips made for Instagram & TikTok.

"Come as you are, we'll take care of the rest."
